

FOSSELAT ACADEMY

Placement Test — Question Bank Review v4.1

Final Curriculum-Alignment & Objectivity Audit of the Question Banks

941 questions · 26 level banks · every item mapped to its own level's competencies · algorithm, design and flow untouched

ملخص بالعربية

دي مراجعة للبنوك فقط: الخوارزمية والتصميم والتدفق كما هم بدون أي تغيير.

الحفظ: اتشالت نهائيًا كل أسئلة «أي آية من سورة كذا» (60 سؤالًا) و10 أسئلة مقاطعها غير فريدة في المصحف، واتضافت 37 سؤال «كلمة ناقصة» مولدة من المصحف بإثبات آلي أن ليها إجابة واحدة فقط وبمشتتات واقعية، وأسئلة «المقطعان من نفس السورة» اتفصلت بصريًا في صندوقين بعنوان Excerpt 1 / Excerpt 2.

تأسيس العربية: اتشال 41 سؤالًا خارج هدف البرنامج (معاني كلمات، الشاذ بينهم، جموع، معنى الجملة، أسماء الإشارة، توصيل الحروف)، واتضاف 33 سؤال قراءة صافية، والمستوى الأول بقى حروف وحركات فقط.

القراءة والتجويد: 17 سؤالًا اترخلوا من المستوى الأول لمستواهم الصحيح (مدود ← م2، سكون ← م3)، واتضافت أسئلة تعرف على الحرف بالاسم، والمستوى الأول اتفحص آليًا: لا سكون ولا شدة ولا تنوين ولا مدود فيه.

كل سؤال في البنوك كلها: إجابة واحدة مدافع عنها، تصحيح آلي 100%، بدون أي مساعدة معلم، وبدون أي تلميح للإجابة.

الفحوصات: 49,156 تحقّقًا في المحاكاة + 67 فحصًا في متصفح حقيقي — كلها ناجحة.

1. The rule applied to every question

The audit question: “Is this question actually measuring a competency that the student is expected to have acquired at this specific level according to the Curriculum Framework?” — If no: removed, rewritten, or moved to its correct level.

Every one of the previous 981 items was re-checked question-by-question for: program fit, level fit, the exact competency measured, difficulty source, single defensible answer, automatic scorability, and absence of answer-revealing clues. The result is 941 items in 26 banks — every bank still well above the 10 questions served, and the placement algorithm, thresholds, screens and design untouched.

Change	Count
Removed — ambiguous “which verse is from Surah X” family (Memorization)	60
Removed — passages/excerpts not globally unique in the mushaf (Memorization)	10
Removed — vocabulary meanings, odd-one-out, plurals, sentence meaning, demonstratives, joining trivia (Foundation)	41
Removed — odd-one-out (Post-Foundation, ambiguity risk)	1
Removed — passage-comprehension translation item (Foundation L4)	1
Moved to their correct level (Foundation L1→L2 • R&T L1→L2/L3)	22
Reformatted — two-excerpt items split into separated, labelled boxes	23
Added — corpus-generated missing-word recall items (Memorization)	37
Added — authored pure-decoding / letter-foundation items (Foundation & R&T L1)	47
Total items now	941

2. Memorization & Revision

- **Removed:** every item of the type “Which of these is from Surah X?” or “...from Surah X and not Surah Y” — the whole family is gone (60 items).
- **Removed:** passage→surah items whose excerpt occurs in more than one surah, and two-excerpt items whose excerpts are not unique (10 items) — verified against the complete mushaf text.
- **Kept:** “Which surah is this passage from?” (79 items — each excerpt now proven to occur in exactly one surah) and “Both excerpts are from the same surah — which?” (23 items).
- **Reformatted:** the two excerpts now render as two separate boxes labelled Excerpt 1 / Excerpt 2 with clear spacing — they can no longer be misread as one continuous verse.
- **Added:** 37 missing-word items: a short passage is shown with ONE word blanked (____); the student picks the exact word from four Arabic options.

How each missing-word item is proven fair

- The shown context is searched across the entire mushaf: wherever that exact word sequence occurs, it is always followed by the same word — so exactly one answer is defensible. Ambiguous contexts (repeated refrains) are skipped automatically.
- Every distractor is checked to make sure it does NOT form a real Qur'anic sequence in that slot — no second correct answer can hide among the options.
- Distractors are realistic memorization mistakes: words of similar shape drawn from the same surah (or its level band), length-balanced against the correct word.
- The blank is a single word; the excerpt stays short; particles and trivial function words are never the blanked word.

The screenshot shows a quiz interface for Fosselat Academy. At the top, it says "Fosselat Academy" and "LEVEL 1 — JUZ AMMA (JUZ 30) · QUESTION 2 OF 10". The main question is "Choose the exact word that completes this passage:". Below this, there is a text box containing the Arabic phrase "يَقُولُونَ أَءَئِنَّا _____ فِي الْخَافِرَةِ". Below the text box, there are four multiple-choice options, each in a separate box: A. يَسْأَلُونَ, B. لَمْزُودُونَ, C. بِالسَّاهِرَةِ, and D. مُنْتَهَاهَا. At the bottom right of the options, there are two buttons: "Skip" and "Continue".

Missing-word recall item — one blank, four plausible same-surah words

QUR'AN - LEVEL 1: JUZ AMMA (JUZ 30)

Both lines below are from the same surah. Which one?

EXCERPT 1

إِنَّ الْإِنْسَانَ لِرَبِّهِ لَكَنُورٌ

EXCERPT 2

إِنَّ رَبَّهُم بِهِمْ يَوْمَئِذٍ لَّخَبِيرٌ

☐ A Quraysh☐ B Al-'Adiyat☐ C Al-Layl☐ D An-Nasr

Skip

Continue

Two-excerpt item — separated, labelled boxes (no longer one continuous line)

3. Arabic Foundation — reading foundation only

The program now assesses Arabic reading foundations, not general Arabic knowledge. Removed across all four levels: word meanings (“what does بيت mean?”), odd-one-out, plural formation, sentence translation, demonstratives and question-word vocabulary, word-assembly, letter-connection trivia and the alphabet-count question — 41 items. Added 33 pure decoding items.

Level	Now assesses
L1 — Letters & Short Vowels	Letter names/sounds/shapes, look-alike & sound-alike discrimination, positional forms, alphabet order, harakat, CV syllables, all-short-vowel blending (كَتَبَ). Word-reading items containing sukun or long vowels were moved out.
L2 — Long Vowels & Closed Syllables	Long-vowel recognition and decoding, sukun syllables (مَسْجِدٌ، بَيْتٌ), dagger alif, moon-letter article, transliteration-matching decoding (مَكْتَبٌ).
L3 — Tanwin, Shaddah & Decoding Autonomy	All tanwin endings, shaddah words (رَبُّ، مُحَمَّدٌ), sun vs moon article behaviour, shaddah+tanwin combinations, unseen-word decoding.
L4 — Fluency, Orthography & Writing Foundations	Hamzah seat rules (سُؤَالٌ، مُؤْمِنٌ، أَسْئَلَةٌ), ta marbutah vs ha, alif maqsurah, mushaf ↔ standard spelling, dictation-style spelling choices, long-word fluent decoding (يَسْتَغْفِرُونَ).

4. Reading & Tajweed — strict level sequencing

- Level 1 is now strictly letters, letter names, letter sounds, discrimination, harakat and all-short-vowel blending. Six letter/harakah items were added, including name→letter recognition (“Which of these is the letter 'Baa'?”).
- 17 items were moved OUT of Level 1 to where their skills are taught: words with long vowels (كَبِيرٌ، نُورٌ، طَعَامٌ) → Level 2; words and syllables with sukun or shaddah (بَبْ، قُلْ، مَنْ، صَبْرٌ، شَمْسٌ، عَيْرٌ، الْحَمْدُ) → Level 3 — relabelled as easy items at their new levels.
- A mechanical guarantee now runs in the test-suite: no Level-1 reading item may contain sukun, shaddah, tanwin or madd marks in its stimulus or correct answer.
- Levels 2–4 were re-verified against their framework competencies (L2 elongation & tanwin · L3 notation rules incl. nun/mim sets and stopping · L4 articulation, madd hierarchy, waqf & ibtida). No level tests another level's skill.

5. Objectivity & question quality (all banks)

- Every question is a four-option MCQ with one stored correct answer — 100% automatically scorable, no teacher, examiner or interpretation anywhere.
- No self-rating, no free-text, no timed self-reporting; the question text contains everything needed to answer it.
- Anti-clue audits enforced at build time: no option-length giveaways, per-bank Arabic length balance, correct answers rotated across all four positions, no “all/none of the above”, prompt never contains its answer, no duplicates.
- Ambiguity: memorization passages proven unique in the mushaf; missing-word distractors proven not to fit; odd-one-out items removed everywhere they appeared.
- Islamic Studies, Post-Foundation and Ijazah banks passed the same sweep — the checked violations (ambiguous types, meaning-tests-in-reading-programs, leading wording) were not present there; only one Post-Foundation odd-one-out item needed removal.
- The build refuses to write questions.json if any rule fails — broken items cannot reach the app.

6. What did not change — and the tests

- Untouched: the upgrading/downgrading algorithm, 10 questions per level, the 60% threshold, first-unmastered placement, self-report routing, UI, colors, navigation, flow, resume, deep links, large Arabic typography.
- The only UI additions are the two technically required renders: labelled separated excerpt boxes, and the blank inside missing-word passages. Arabic sizes unchanged (stimulus $\geq \sim 27\text{px}$ desktop, verified $\geq 20\text{px}$ at 390px mobile with no horizontal scroll).

Test results

Suite	Result
Engine simulation — structure, curation rules (banned types absent, L1 purity, arabicParts, missing-word format), 150 deterministic students, threshold 6/10 vs 5/10, the four spec examples, over-claimers, age-neutrality, resume, 240 fuzz runs, bias checks	49,156 assertions — ALL PASS
Real browser (Vite + Chromium) — full memorization run rendering both new formats, R&T borderline placement, mobile 390px readability, zero console errors	67 checks — ALL PASS
Project linter (oxlint) on changed files	clean

Appendix — bank sizes after the review (pool vs 10 served)

Program	L	Level name	Pool	e/m/h
Reading & Tajweed	L1	Letter & Sound Foundations	25	14/9/2
Reading & Tajweed	L2	Elongation & Word Fluency	30	9/8/13
Reading & Tajweed	L3	Connected Reading & Core Rules	85	15/53/17
Reading & Tajweed	L4	Fluent Recitation & Applied Mastery	29	2/11/16
Memorization & Revision	L1	Juz Amma (Juz 30)	41	1/29/11
Memorization & Revision	L2	Juz 29 & Core Surahs	43	0/26/17
Memorization & Revision	L3	Half-Qur'an Memorization	32	0/4/28
Memorization & Revision	L4	Complete Hifz (Khatm)	23	0/0/23
Ijazah Preparation	L1	Ijazah Foundation (Pre-Sanad)	42	0/25/17
Ijazah Preparation	L2	Ijazah Certification (Sanad)	31	2/13/16
Arabic Foundation	L1	Letters & Short Vowels	29	16/13/0
Arabic Foundation	L2	Long Vowels & Closed Syllables	22	5/14/3
Arabic Foundation	L3	Tanwin, Shaddah & Decoding Autonomy	18	2/13/3
Arabic Foundation	L4	Fluency, Orthography & Writing Foundations	18	3/12/3
Arabic Post-Foundation	L1	Survival Communication (PF1)	22	5/15/2
Arabic Post-Foundation	L2	Everyday Transactions (PF2)	19	4/11/4
Arabic Post-Foundation	L3	Social Communication & Foundational Grammar (PF3)	25	4/19/2
Arabic Post-Foundation	L4	Connected Discourse & Contemporary Topics (PF4)	19	1/7/11
Arabic Post-Foundation	L5	Extended Reading & Structural Depth (PF5)	18	0/7/11
Arabic Post-Foundation	L6	Academic Readiness & Composition (PF6)	16	0/3/13
Comprehensive Islamic Studies	L1	First Foundations of Faith & Daily Practice	34	12/16/6
Comprehensive Islamic Studies	L2	The Framework of the Deen	98	30/43/25
Comprehensive Islamic Studies	L3	Evidence & the Foundations of Worship	56	17/27/12
Comprehensive Islamic Studies	L4	Tawheed, Purification & the Conditions of Faith	61	19/29/13
Comprehensive Islamic Studies	L5	Forms of Worship & Establishing the Prayer	61	18/29/14
Comprehensive Islamic Studies	L6	Guarding Tawheed & Complete Devotional Practice	44	5/24/15

The only advisory note: Memorization L4 is intentionally all-hard (complete-Hifz band); the engine's difficulty quota tops up automatically. Every pool remains ≥ 16 against the 10 served.
